**Subject:** Visit at Plan from the NYPD representative

Dear David:

I got a visit today from the purchasers of the FPE from the NYPD they wanted to look at the plant and our operation not to mention they believe this product is going to be great for them. They wanted to arrange pick up of the material for Monday and I told them I didn't know what time the shipment will come in, I have been trying to reach you all afternoon to have check with them here to confirm their pick up for either Monday late evening or Tuesday am. To my surprise when I called Yellow they have no record of any pick up at your location and that has me really nervous.

Please call me back and get me that information so I could have a less stressful weekend...I really don't need the extra stress in my life.

Olga
